# Eduardo Mazieri

Product Designer

Germany

## Summary

I'm a product designer with expertise in accessibility, design systems, and interaction design, leveraging AI where it adds value to each project.

---

## Experience

### The Adecco Group

Senior User Experience Designer

August 2022 - Present (4 years 3 months)

Berlin, Germany

Owned the end-to-end development of a design system for a global product deployed across 70+ countries, defining reusable components, patterns, and guidelines that support consistency, accessibility, and scalability.

Owned design initiatives from discovery and scoping through execution and delivery, aligning user needs, business goals, and technical requirements.

Provided WCAG accessibility expertise to design decisions, helping teams translate accessibility requirements into practical, usable experiences.

Built processes for clear communication, feedback, and iteration across design, development and internal stakeholders.

Implemented AI-enabled workflows for documentation, handout and iteration.

### Podigee – Podcast Hosting & Analytics

Senior UX Designer

February 2021 - October 2021 (9 months)

Berlin, Germany

Collaborated with stakeholders and developers to define priorities and guide projects from concept to delivery.

Designed scalable experiences for onboarding and key features, supporting fast iteration.

Maintained end-to-end customer journey maps to connect insights across touchpoints and identify opportunities for improvement.

fromAtoB GmbH

Senior UX Designer

November 2017 - January 2021 (3 years 3 months)

Berlin Metropolitan Area

Built and maintained a design system to improve consistency, usability, and design efficiency.

Led design across cross-functional teams, aligning on user needs and guiding key product redesigns.

Conducted user interviews, usability testing, and data analysis to inform design decisions.
